SUSTAINABILITY

Our dedicated teams work closely with guests to create menus with flair, dedication and a passion for excellent service. When it comes to planning the ultimate dining experience at your event, our highly esteemed catering team delivers impeccable service and taste. Our team of industry-leading culinarians are always finding ways to go above and beyond, crafting memorable experiences for you and your guests.

At Edinburgh Zoo we are passionate about sustainability and minimising wastage. By using products that would usually go to waste, due to suppliers over-producing or through secondary harvesting, we create beautiful food that you can enjoy with a clear conscience.

We are led by the seasons and work closely with our suppliers to make sure we are in sync with any external factors that may affect produce.

Scottish produce is at the heart of everything that we do. All of our suppliers are carefully chosen based on their business ethics and quality. We believe it's important to know what you're eating and where it's come from.

Royal Zoological Society of Scotland (RZSS) – a wildlife conservation charity with a bold vision: a world where nature is protected, valued and loved.

RZSS pledges to reverse the decline of at least 50 species by 2030, from pine hoverflies and wildcats in the Cairngorms National Park, to chimpanzees in Uganda, giant anteaters in Brazil and many more.
