¹Includes the escape then re-capture of 1.0.0 Japanese macaque

²This number has been corrected from last year’s inventory to reflect an additional red deer death that was missed from the 2023 inventory.

³Although there are no adults or larvae remaining there are likely to be many blood red longhorn beetle eggs, so this species is still counted as present in the collection.

⁴Births and deaths are not recorded for this species.
